Professional Experience

FullStack Laravel Developer

Novelsolar integrated services | oyo state, Nigeria (onsite) | june 2023 – present

- Optimized API performance by reducing response time by **30%** through advanced query optimization, significantly enhancing user experience.
- Boosted system efficiency by improving data retrieval processes by **25%**, resulting in faster and smoother operations.
- Delivered 20+ robust API endpoints, expanding application functionality by **20%** and supporting seamless feature integration.

Laravel Back-end Developer

Go-Getters Development Team | Nigeria (Remote) | Jan 2025 - Present

- Reduced API response time by 30% through query optimization and efficient use of Eloquent relationships, significantly enhancing user experience
- Boosted data retrieval performance by 25% via optimized SQL queries and caching strategies, improving overall system responsiveness.
- Achieved 100% secure user authentication using Laravel Sanctum, strengthening data protection and access control.
- Enhanced project maintainability by **40%** through clean, well-documented code and structured API responses.

Key Projects

Stock Reconciliation system | [\[Link\]](#)

February 2024 - May 2022

Created a Software for stock management that automates stock management processes

- Automated stock calculations, reducing manual tracking efforts by **40%** and increasing operational efficiency
- Streamlined inventory monitoring through real-time stock movement tracking, cutting reconciliation time by **35%**
- Improved reporting accuracy by **30%** with detailed transaction summaries, enhancing decision-making for stock management
- Reduced inventory discrepancies by **25%** via automated calculations and error detection logic

Solar-Load Estimator | [\[Link\]](#)

Jan 2025 - Feb 2025

Developed a Solar-Load Estimator to help users calculate the ideal solar setup and estimate costs based on selected appliances for homes and businesses.

- Automated solar load calculations, reducing manual estimation time by 40%
- Delivered dynamic solar system recommendations, enhancing decision-making efficiency by 30%
- Integrated PDF quote generation, increasing user convenience and documentation by 50%
- Enabled discount input features, boosting pricing flexibility and user engagement
- Built with Laravel, HTML, CSS, and JavaScript to ensure a responsive, full-stack experience

Wallet Api | [\[Link\]](#)

March 2025 - March 2025

Developed a Wallet Api that allow users to manage different wallets

- Enabled multi-wallet support per user, enhancing financial flexibility by 60%
- Achieved sub-250ms response times through efficient query structuring and RESTful architecture
- Ensured accurate money transfers by enforcing minimum balance rules across all wallet types
- Delivered seamless wallet-to-wallet transfers via robust API endpoints, boosting system usability by 40%
- Built using Laravel, aligning with RESTful standards for scalable and maintainable development

Project Management System: TaskSphere | [\[Link\]](#)

Jan 2025 - Present

Developed an application that streamlines project management among multiple users around the world.

- Boosted team collaboration by 35% with real-time task tracking and notifications
 - Reduced project completion time by 20% through workflow automation and milestone tracking
- Integrated third-party tools like Slack and Trello for seamless communication and task management

Education

Oduduwa University Ipetumodu | Osun State, Nigeria | Jun 2016 - Jun 2021

Computer Science (B,SC)

- Cultivated a results-driven environment, driving strategic planning and execution for academic events
- Orchestrated winning strategies and inspired team success through decisive leadership and mentorship
- Championed team excellence, leading 4 members to secure 1st place in an inter-institutional competition

Skills and Interest

Technical Skills:

- Backend: Laravel, PHP, RESTful APIs, PHP, Composer, NPM,
- Frontend: HTML, CSS, JavaScript, Bootstrap
- Data Management: MySQL, PostgreSQL, SQLite, JSON

Tools: Git, GitHub, XAMPP, VSCode, Sublime text, Hostinger, Namecheap

Soft Skills: Growth Mindset, Creativity, Communication, Teamwork, Critical Thinking, Leadership, System Visionary thinker

Languages: English (Fluent)
